PROFESSIONAL EXPERIENCE

[HavenHive Marketing](#), Ikeja, Nigeria.

Frontend Engineer. February 2025 - August 2025

- Spearheaded the development of 20+ reusable React components for the portfolio website, accelerating UI development by 25% and ensuring cross-page consistency.
- Implemented responsive layouts, motion effects, and reusable components, reducing **UI development time by 25%** while ensuring consistency across pages.
- Engineered a high-conversion hotel booking platform, **Betta Rest**, integrating real-time availability, secure transactions, and diverse payment gateways, which improved platform uptime to 99.9% during peak seasons.
- Executed code splitting and lazy loading techniques on the platform, slashing average page load time by 32% and decreasing user bounce rate by 15% upon initial page visit.
- Established a shared component library in Storybook with a 3-member team, slashing developer onboarding time by 40% and diminishing rework cycles by 25%, positioning as a key stakeholder.

[Algoritic Inc](#) Nigeria (Fulltime).

Frontend Developer. November 2024 - February 2025

- Built **Snapcard**, a digital payments tool, with a React frontend and REST API integration, enabling users to send and receive cards instantly and driving a **25% increase in user adoption** within 3 months.
- Developed **Cinewatch**, a movie discovery and watchlist app, implementing real-time API fetching, search, and filtering features, which improved **content discoverability by 40%**.
- Optimized Snapcard's performance by refactoring components and caching API calls, reducing **average load time by 30%** and enhancing mobile responsiveness.
- Designed a modern, user-friendly UI/UX for both apps using Tailwind CSS and reusable design patterns, cutting development time for new features by **20%**.
- Engineered a streamlined user onboarding process with secure payment integration, leading to a 25% increase in successful transactions and a 10% reduction in cart abandonment rates.

[Naija Metrics](#), Lagos State, Nigeria (Fulltime).

Frontend Developer Intern. July 2024 - October 2024

- Built **WeThePeople NG**, a civic engagement platform, with React and GraphQL, enabling real-time polls, petitions, and discussions that boosted **user participation by 45%**.
- Developed **SwiftCart**, a scalable e-commerce website, implementing product search, secure checkout, and responsive UI, which increased **session-to-purchase conversion by 22%**.
- Optimized frontend performance for both projects by implementing lazy loading and code splitting, reducing **initial load time by 35%**.
- Designed and integrated reusable UI components with Tailwind CSS and Framer Motion, cutting design-to-development cycles by **30%** and delivering smoother user interactions.
- Collaborated with designers and backend engineers to align user flows and APIs, reducing miscommunication and **shortening delivery timelines by 25%**.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Shadcn UI

State & Data: GraphQL, REST APIs, Firebase

Tools & Workflow: Git, GitHub, Framer Motion

EDUCATION

Christ the Solid Rock Schools, Agbara, Ogun State, Nigeria

Senior Secondary School Certificate (Sciences) | Sept 2019 – July 2024

PROFESSIONAL CERTIFICATIONS

HTML, CSS & JavaScript Certificate — DevAcademy (2024)

Completed the foundational web development track, covering responsive design, DOM manipulation, and ES6+ JavaScript.

Responsive Web Design & JavaScript Algorithms Certification — freeCodeCamp (2024)

Earned certifications covering modern frontend practices, including accessibility, responsive design, and JavaScript problem solving.

Frontend Developer Career Path — Scrimba (2024)

Completed a hands-on career path program with real-world projects in HTML, CSS, JavaScript, React, and responsive web development.

Frontend Development Certificate — W3Schools (2024)

Certified in HTML, CSS, JavaScript, and modern frontend techniques, validating industry-standard knowledge of web development.

COURSE HIGHLIGHTS

HTML & Semantic Structure — mastered semantic tags, forms, tables, and accessibility best practices for building structured, SEO-friendly webpages.

CSS & Responsive Design — learned layouts (Flexbox, Grid), media queries, and responsive techniques to create mobile-first, cross-device web experiences.

JavaScript Fundamentals — covered ES6+ syntax, DOM manipulation, events, arrays, objects, loops, and functional programming concepts.

JavaScript Algorithms & Problem Solving — practiced data structures, recursion, and algorithmic thinking through freeCodeCamp's challenges.

Frontend Frameworks & State Management — built interactive projects with React (components, props, hooks, routing), improving scalability and performance.

UI/UX Practices — applied user experience principles, accessibility guidelines, and design-to-development workflows for polished interfaces.

Project-Based Learning — completed real-world projects (portfolios, landing pages, e-commerce features, interactive apps) to reinforce practical frontend skills.
